## Introduction

Hi....

This is Rammohan Locharla.

*I build an application called “Grocery Basket” in android using android studio.*

*Many times, we forget to purchase things that we want to buy, after all, we can't remember all the items, so with the help of this app, you can note down your grocery items that you are going to purchase, by doing this you can't forget any items that you want to purchase.*

Yours faithfully,

Rammohan Locharla

Google Developer Profile Link: <https://g.dev/rammohanlocharla>

## *Pre-requisites*

- a. Windows PC/Laptop or Apple Mac*
- b. Download and install Android Studio from the below link*  
<https://developer.android.com/studio>
- c. Physical (I used OnePlus 8 Pro mobile) or Virtual Android mobile.*
- d. Internet Connection to access various resources.*
- e. USB Cable (in case of using physical device).*

## App Overview

i. *This is my Grocery Basket App Icon*

ii. *On App Startup, This, will be the first screen on initial setup...*

1. Added custom app bar and toolbar on top side
2. Added App's Icon and Title to the app bar
3. Headings relating to Items added in the apps

*This will be Empty, since we haven't added any items yet.*

- iii. Click on Add FAB (i.e., Floating Action Button) on the bottom right to add items to the app and fill details in the text fields

1. On clicking Add FAB----Screen navigates to Add Item Fragment
2. We have to fill the details of item as shown in the picture

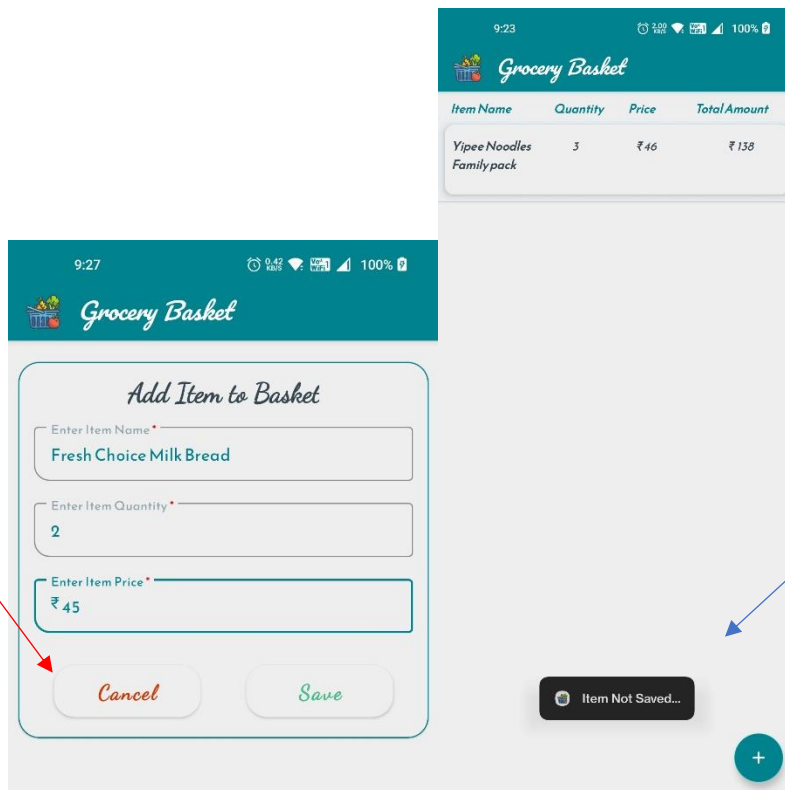

A screenshot of a mobile application titled 'Grocery Basket'. The app has a teal header bar with a shopping basket icon and the title. Below the header, there is a white card titled 'Add Item to Basket'. Inside the card, there are three text input fields: 'Enter Item Name \*' with the value 'Yipee Noodles Family pack', 'Enter Item Quantity \*' with the value '3', and 'Enter Item Price/Qty \*' with the value '₹ 46'. At the bottom of the card, there are two buttons: 'Cancel' in red text and 'Save' in green text. The status bar at the top shows the time as 9:40, network speed as 0.28 KB/s, and battery level as 100%.

- iv. After all fields are filled, clicking on Save Button, it saves the data in the app and show it in our Main screen

1. There will be a **Toast message** will be shown at the bottom side when the item is saved in the app.

- v. When click on cancel button in the Add Item screen, no item will be added to the app

1. There will be a **Toast message** will be shown at the bottom side when the item is not saved in the app.

vi. On clicking on any item, it will navigate to Item Detail screen

1. This is the Item Detail screen, where we can see Grocery item details
2. There are two button at the bottom part.

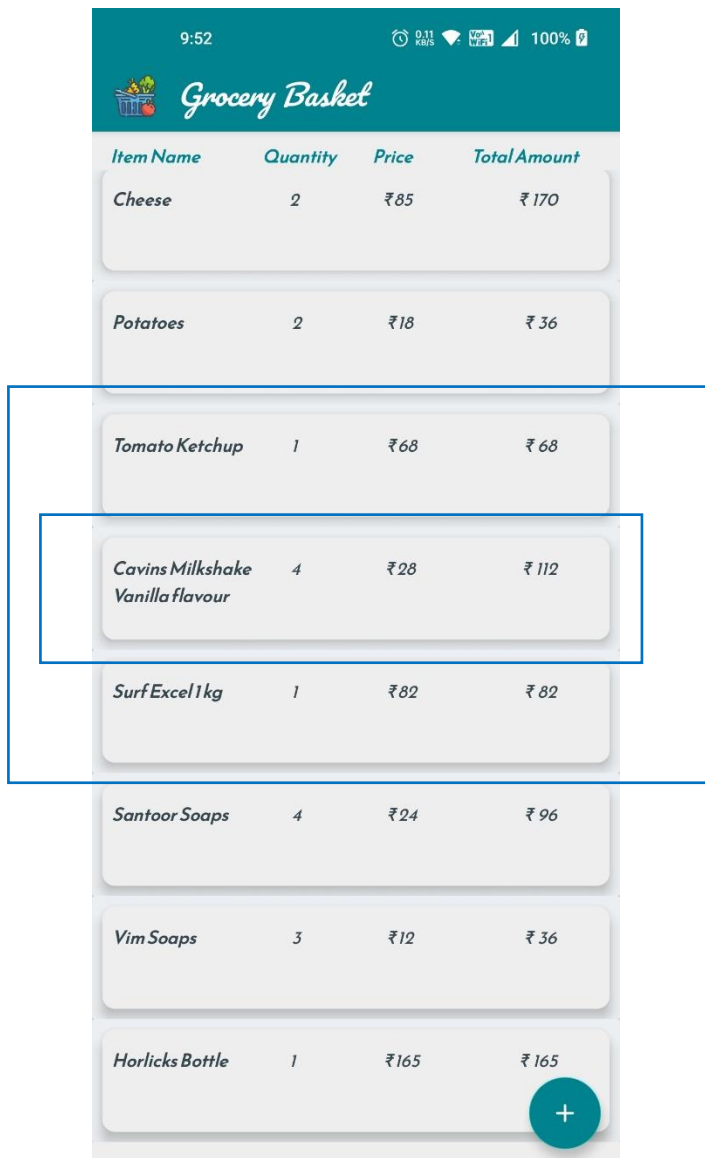

vii. If we click on the delete button, the item will be deleted from the app's data. Here, we can see **Onions** item in the list, clicking on it shows us detail screen, clicking on Delete button, it will show us Confirm Delete dialog. If we click on **Yes** on the dialog, the item will be deleted.

Check the screenshots below

viii. We can edit item in the list

a. First tap on any item

9:52 0.11 KB/s 100%

 *Grocery Basket*

Item Name	Quantity	Price	Total Amount
Cheese	2	₹ 85	₹ 170
Potatoes	2	₹ 18	₹ 36
Tomato Ketchup	1	₹ 68	₹ 68
Cavins Milkshake Vanilla flavour	4	₹ 28	₹ 112
Surf Excel 1 kg	1	₹ 82	₹ 82
Santoor Soaps	4	₹ 24	₹ 96
Vim Soaps	3	₹ 12	₹ 36
Horlicks Bottle	1	₹ 165	₹ 165

+

- b. It will go to detail screen, then click on edit icon, it will go to Edit item screen, there the fields are already fill the existing data. We can the change the data (**changing the flavor to Chocolate**) and click on save to get save in the app.

Grocery Basket

*Item Detail*

Item Name Cavins Milkshake Chocolate flavour

Item Quantity 5

Item Price ₹28

Total Amount ₹140

Delete Edit

1. Item details had changed after clicking on save button in the edit item screen
2. Flavor changed from **Vanilla** to **Chocolate**

9:52 0.11 KB/s Wi-Fi 100%

 *Grocery Basket*

Item Name	Quantity	Price	Total Amount
Cheese	2	₹ 85	₹ 170
Potatoes	2	₹ 18	₹ 36
Tomato Ketchup	1	₹ 68	₹ 68
Cavins Milkshake Chocolate flavour	5	₹ 28	₹ 140
Surf Excel 1kg	1	₹ 82	₹ 82
Santoor Soaps	4	₹ 24	₹ 96
Vim Soaps	3	₹ 12	₹ 36
Horlicks Bottle	1	₹ 165	₹ 165

+

1. Item also got updated in the list in the same row

## Concepts used

- *Recycler View*
- *Card View*
- *Fragments*
- *Navigation*
- *ViewModel*
- *Coroutines*
- *Live Data*
- *Flow*
- *Room database*

*Also added simple transitions between Fragments.*

## Gradle dependencies used

```
dependencies {  
  
    implementation 'androidx.core:core-ktx:1.7.0'  
    implementation 'androidx.appcompat:appcompat:1.5.1'  
    implementation 'com.google.android.material:material:1.6.1'  
    implementation 'androidx.constraintlayout:constraintlayout:2.1.4'  
    implementation 'androidx.cardview:cardview:1.0.0'  
    implementation 'androidx.recyclerview:recyclerview:1.2.1'  
  
    //Navigation Component  
    implementation "androidx.navigation:navigation-fragment-ktx:2.5.2"  
    implementation "androidx.navigation:navigation-ui-ktx:2.5.2"  
  
    //ViewModel and LiveData  
    implementation "androidx.lifecycle:lifecycle-viewmodel-ktx:2.5.1"  
    implementation "androidx.lifecycle:lifecycle-livedata-ktx:2.5.1"  
  
    //Room Database  
    implementation "androidx.room:room-runtime:2.4.3"  
    kapt "androidx.room:room-compiler:2.4.3"  
    implementation "androidx.room:room-ktx:2.4.3"  
  
    //test  
    testImplementation 'junit:junit:4.13.2'  
    androidTestImplementation 'androidx.test.ext:junit:1.1.3'  
    androidTestImplementation 'androidx.test.espresso:espresso-core:3.4.0'  
}
```

## Material Components used

- *Text Fields*

- *Dialog*

- *Buttons*

- *Card View*

- *Floating Action Button*

- *Top App bar*

## **Project's Complete Code**
